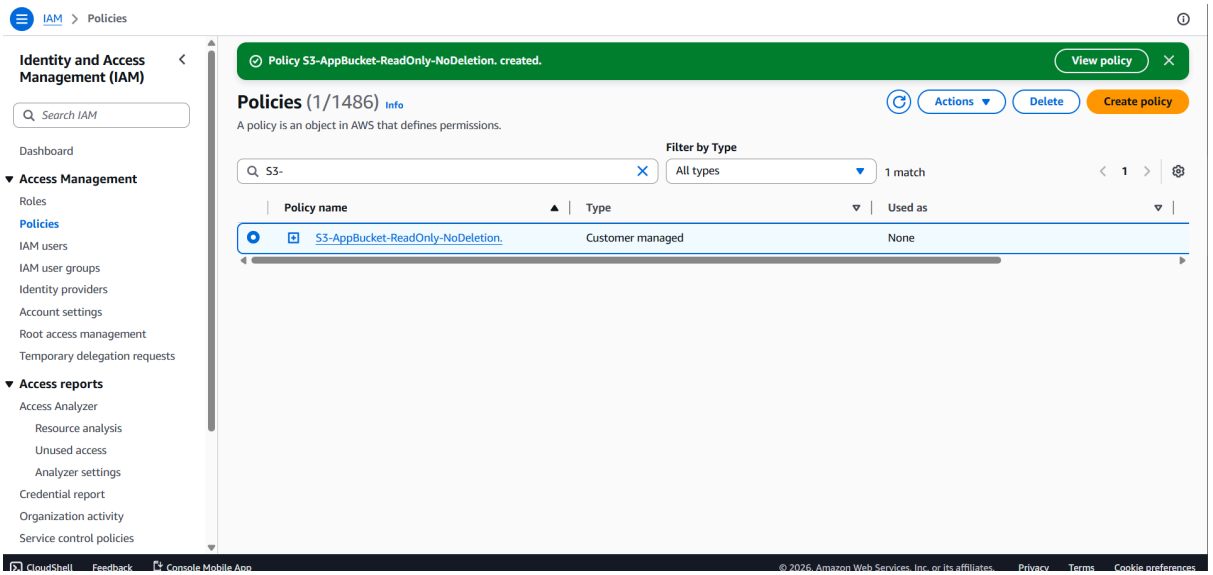
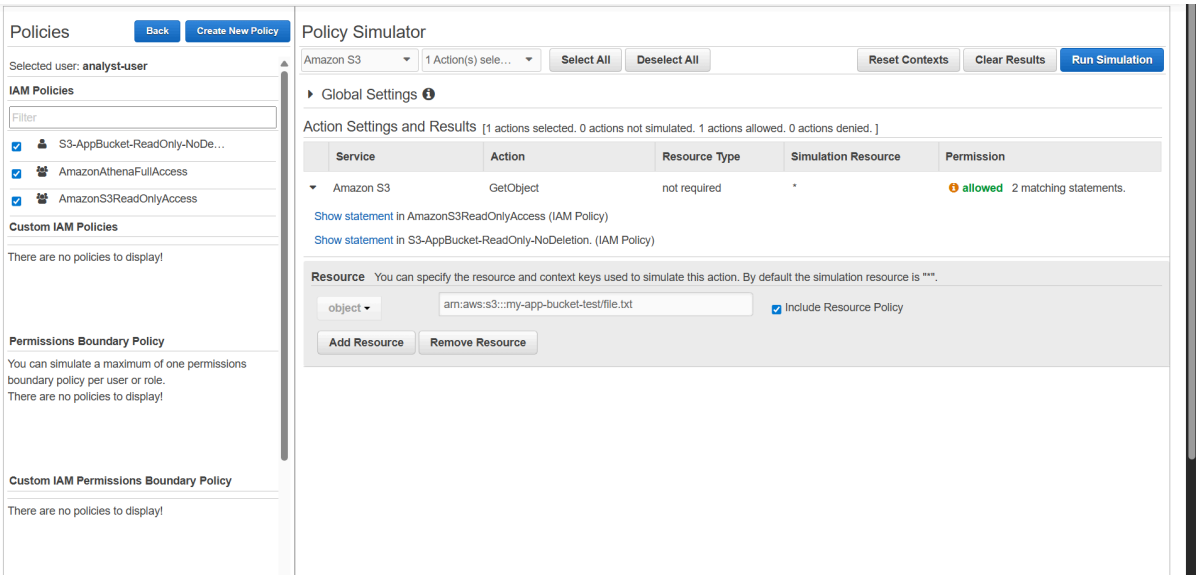
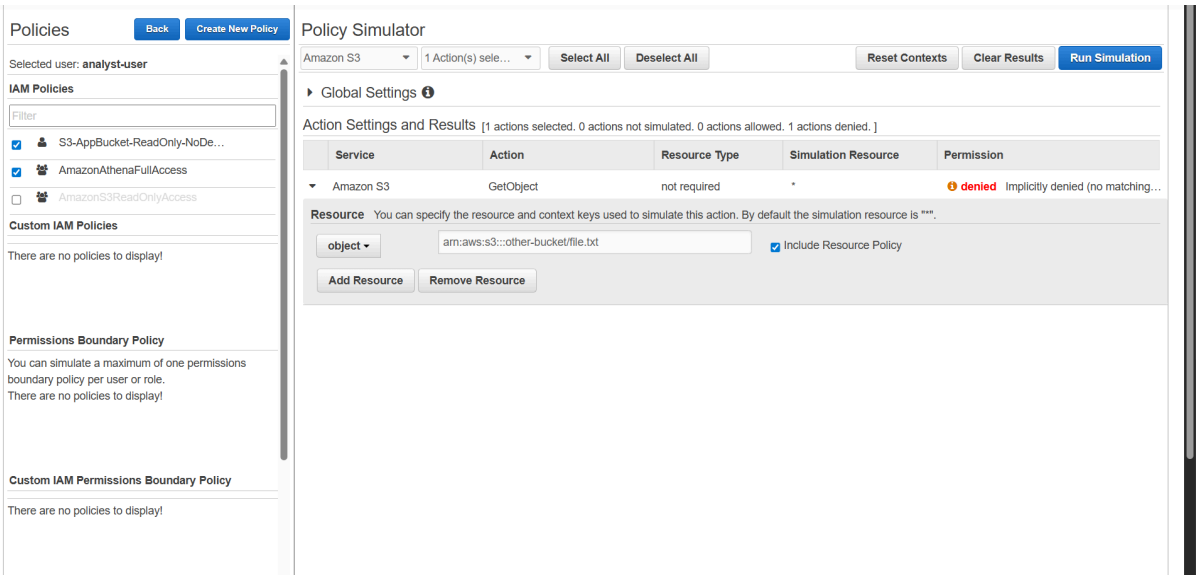
Your custom policy JSON in the IAM console



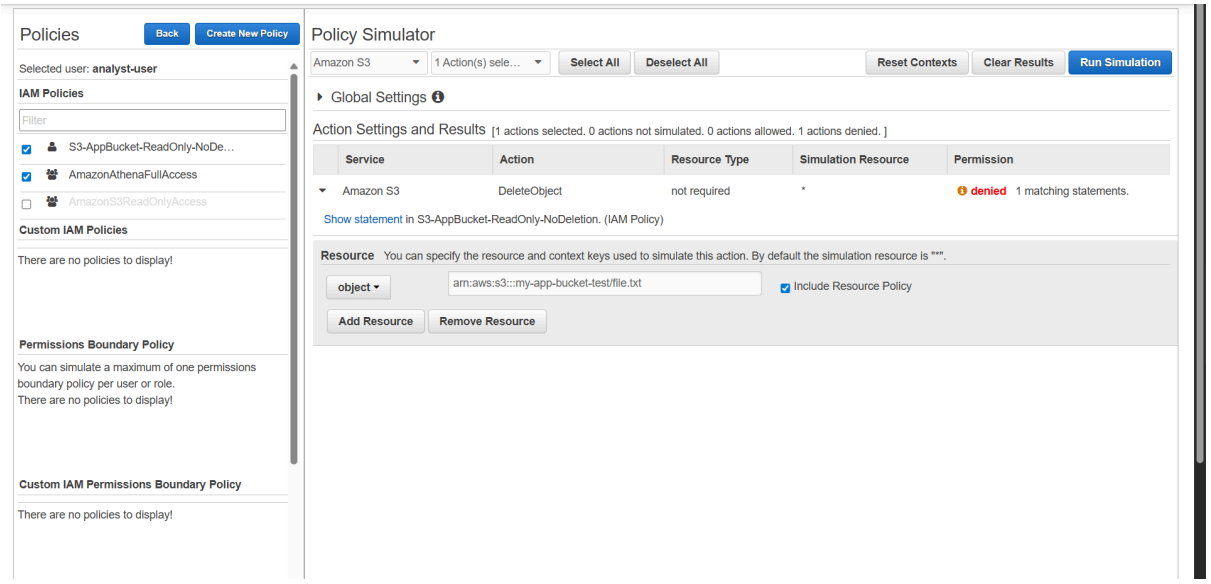
Policy Simulator showing Allowed for s3:GetObject on correct bucket



Policy Simulator showing Denied for s3:GetObject on wrong bucket



Policy Simulator showing Denied for s3:DeleteObject (explicit deny)



Bonus Challenge

Custom IAM policy: S3 read access scoped to named bucket prefix, with explicit deny on delete operations. Written as part of AWS Cloud Accelerator Week 2 Day 2.

s3-readonly-nodelete-policy.json. Raw

```
{
